Cashmaster®
one card sure®

A silent, quick and accurate method of counting and verifying cards

“We’ve been using the Cashmaster One Card Sure ® for some time now, and it has revolutionized our card audit procedures. No more counting by hand, no errors, and a full electronic record. Highly recommend”.

COUNT 8 DECKS IN
UNDER 60 SECONDS!

Indispensable on all gaming floors

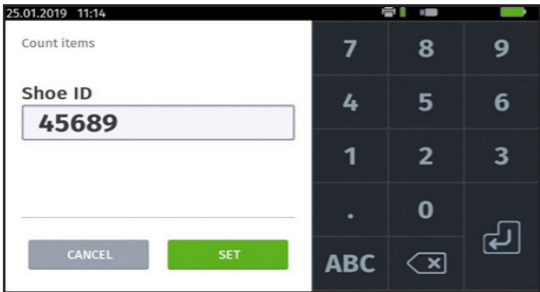

The Cashmaster One Card Sure ® provides a quick, silent and accurate method of verifying card quantities using count-by-weight technology. In comparison with traditional mechanical counters, the Cashmaster One Card Sure ® offers a significantly superior, more portable solution which enables you to perform card counting activities at individual tables or in the back office.

With Cashmaster One Card Sure ®, you have it all — the counter, the optional integrated printer, and the power, all without wires in one neat self-contained unit— great for carrying out quick spot checks and counts at any table on the gaming floor. Reliability is assured and you can be confident that every single card is accounted for.

Achieving accurate and reliable counts every time

Designed for intensive use in challenging environments, Cashmaster One Card Sure ® devices have built-in miscount protection, providing fast and accurate counts whatever the ambient conditions.

Switch on your Cashmaster One Card Sure™, count your cards — **you'll be finished in under 60 seconds!**

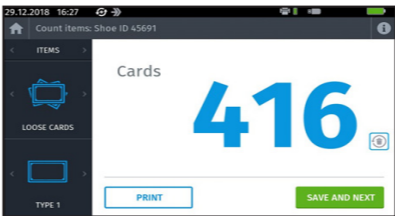

Capture ID information for traceability on every count

A print-out of the count is available using the optional integrated **Cashmaster Printer One.**

CCTV Readable

Large touch screen display that is easily readable by in-house CCTV.

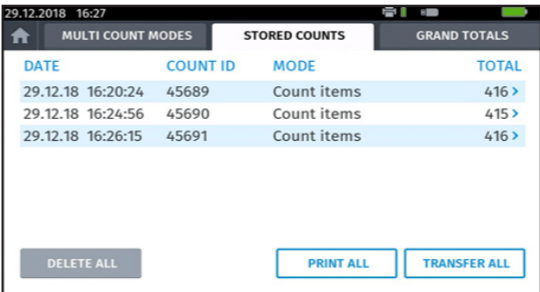

Large touch screen display

All your count data in one place for easy retrieval and audit

The Cashmaster One Card Sure ® ensures all of your count data is stored in one secure and easily accessible place.

With our intelligent software, audit records can be retrieved with a simple few taps of the screen and can be stored safely on the device or printed by the Cashmaster Printer One, which is seamlessly integrated for ease of use.

Internal storage for up to 500 counts

Switch on your Cashmaster One Card Sure™, count your decks and print your count: you'll be finished in under 60 seconds!
