Printer Five

PRINT COUNT REPORTS INSTANTLY.

The Cashmaster Printer Five is a plug-and-play thermal printer designed for use with ProNote[®] bill counters.

Generate clear, detailed count reports in seconds to improve accountability, simplify reconciliation, and support your cash handling processes.

Features and Benefits

Detailed Count Reports

Print denomination breakdowns, piece counts, total values, and traceability information.

Simple Plug and Play Setup

Quick to install with the included connection cable and maintenance free thermal printing technology.

Supports Compliance and Reconciliation

Ideal for audits, cash balancing, transaction records, and bank deposit documentation.

- ✔ 0249/1: External LED Display Single Sided
- ✔ 0249/2: External LED Display Double Sided

Cleaning Kit

DESIGNED FOR ROUTINE MAINTENANCE.

The ProNote® Cleaning Kit contains manufacturer-approved cleaning products designed to help maintain counting accuracy and performance.

Increase up-time and ProNote® life expectancy with quick, easy cleaning on a regular basis.

Features and Benefits

-  Contains 15 individually sealed Waffletechnology® cleaning cards and 15 precision pre-saturated cleaning swabs.
-  Safely removes dust, paper fibres, and ink buildup to help maintain counting accuracy and high-speed operation.
-  Helps reduce jams and rejects while supporting long-term reliability and performance.

External Displays

COUNT RESULTS MADE VISIBLE.

Clearly view the counted cash total and banknote quantity on a large LED display. The free-standing display can be positioned for operator visibility, customer viewing, or CCTV monitoring.

Available in a **double-sided version**, allowing both the operator and customer to see count results simultaneously.

Quick and easy to install with a single plug connection and included cable.

Features and Benefits

-  Displays the counted cash total and number of banknotes on a large, easy-to-read LED display.
-  Share count results clearly with operators and customers using single or double-sided displays.
-  Plug-and-play design with a single connection and included cable for fast, hassle-free setup.
